

VIDEO BLACK BOX - FOR VEHICLES -

Discover recNANO Full HD, the video black box for vehicles. This automatic and autonomous on-board recording system in a compact size is an essential tool for your safety on the road and your independent witness in case of an accident. Equipped with a wide-angle Full HD camera, a gyroscopic sensor to determine the origin of an impact, a built-in 2.5" display to review your footage and a housing resistant to extreme temperature.

Nothing will elude the recNANO Full HD during your journey. All data is automatically recorded and securely stored on the SD memory card*

Depending the volume of storage, the system records your driving and loop secures data in case of contingencies. Analyze your data and view your videos by the free software available on our website: www.road-eyes.com.
